# A-18 Reading light

**Superlites**  

**[Amber Light to Protect Your Eyes]** In amber mode, the color temperature of this book light is 1800K. It blocks 99.99% blue light and emits amber eye caring light to reduce your eye strain. Plus, the distinguished horizontal light bar design makes the illumination evenly spread on the pages of your book. No worries about horizontal books anymore. Perfect for your bedtime reading.

**[True Color & Soft Bright Light]** The built-in 9 advanced LED beads and the CRI is 95. It means this book lamp will deliver you the absolute original colors of the book with high fidelity, it provides you with a vivid and fantasy reading world. The light is reflected multi times before emission to bring you softer and brighter illumination. No harsh light, no flickering, no dazzling.

**[3 Colors & 5 Brightness Dimmable]** This reading light for bed has 3 modes: amber mode (1800K), soft mode (3400K) & natural mode (6000K). The amber mode is a warm book light for reading in bed at night. The soft mode is for general reading and brings you sweet & romantic feelings. The natural mode restores the daylight for better concentration which is ideal for your work. Each model comes with 5 brightness levels, plus a memory function that allows you to set your favorite setting as default.

**[Rechargeable & Long Lasting As You Need]** USB-C rechargeable instead of traditional micro-USB, faster and safer. This reading lamp provides up to 80 hours of reading time in the lowest setting; and 8 hours in the highest setting. It means you can be away from charging for 2+ weeks if you read half an hour every day. No more huntings for plugs. Plus, the timer allows you to fall asleep with the light on, as the light will be off after 30-min automatically for your safety.

**[Product Quality Guarantee]** FCC, CE, RoHS, PSE & C-Tick approved; CRI:95. Safe & Easy to use for kids.
