A24 Rotatable Book Light

[Highly Flexible & Customizable] You can rotate the light head from 0° to 340° based on your preference, allowing you to customize the light angle to suit all your needs. Adjust the lamp head vertically to enjoy your book without disturbing your partner when reading in bed, or rotate the light head horizontally when you tackle larger books. Glocusent Rotatable Book Light will revolutionize your reading experience!

[Bright & Even Light] Our Rotatable Book Light is equipped with a dual-row design of 22 LED beads, ensuring your bright and evenly distributed illumination. We have incorporated brightness and eye caring lighting design into every detail, so it eliminates glare and discomfort during your reading sessions. Moreover, this reading light offers 5 brightness levels and stepless dimming, allowing you to adjust the light to your desired intensity effortlessly.

[3 Color Temperatures & Stepless Color Adjustment] Experience the power of ambiance on your reading journey with our extraordinary book reading light. Different color temperatures can create different moods and greatly impact your reading experience. Enjoy peaceful bedtime reading with warm yellow light (2700K), a refreshing ambiance with natural light (4200K), or boost focus with cool white light (6000K).

[Type-C Rechargeable & Long-lasting] Our rechargeable book light features a Type-C interface, offering faster and safer charging. Our built-in 1000mAh battery can be fully charged in 2.5 hours, providing non-dimming lighting for an impressive 10-100 hours. Also, the Type-C interface enhances the durability of the reading light, allowing for more plug-and-play cycles and extending its lifespan.
