AS-1446002 Ito

Superlites

An ideal light for compact spaces, the Ito is a hybrid of a classic wall-mounted bedside lamp and an integrated wireless docking station. Made from silicone and die-cast aluminium in a matt-white or matt-black finish, it has a modern, organic look and is designed to charge your device even when the light source is switched off. Created with flexibility in mind, Ito's shade can be positioned on the left or right during installation.
