

Flume Wall Light Bronze

Superlites

The Flume Wall Light features a reeded brass body in either an antique brass or bronze finish, and a clear reeded glass shade. Its elegant slimline form is contemporary yet classic, and references the art-deco era. The LED light source within refracts delicately through the reeded glass to create a beautiful lit effect.

1 x 3.6W GU10 MR11 LED

240VAC

2700K

290lms

Dimmable with LED compatible phase dimmers
