

This decorative, dim-to-warm LED filament light bulb is fitted with top, industry-rated flicker-free technology.

At 6W it provides a cost-effective equivalent to 35W incandescent lightbulb. With 90 CRI, a colour temperature range of 2000k - 2800k and a lumen output of 450 this lamp is excellent for use in designs where lighting is used to transform the setting, for example from work space to relaxation. It is particularly popular with all day restaurants, hotels and private customers looking to enhance their home lighting.

Porcelain finish supports better light distribution with no shadows or 'ghosting' and reduces glare making it more restful for eyes.

The traditional shape of this GLS lamp makes it a great option for all around lighting from work to social venues and home.
