

Orient Aluminum P3

Superlites

The silver-coloured aluminium has a personality of its own and renders the design Nordic and exotic at the same time. The well-known oriental shape creates a fascinating contrast in combination with the cool brushed aluminium. As the cherry on top, a suspension in Scandinavian oak combines the shade with a grey blue textile cord and truly underlines the Nordic appearance. Optically, the brushed aluminium makes the entire design appear light and almost levitate.

Orient Aluminum P3

Superlites

The Orient lamp shade is hand spun in a wooden mould, a feature that underlines the original, organic shape and true craftsmanship of this pendant.
