

This decorative, ultra-dimmable LED filament light bulb is an excellent choice for home or trade project. Equipped with top industry-rated flicker-free technology. Operating at 4W this lamp offers a cost-effective alternative equivalent to a 25W incandescent light bulb.

Featuring a CRI 90, a warm white 2700K color temperature, and brightness at 280 lumens, this lamp is often chosen for its gentle and calming illumination, ideal for creating a relaxed ambiance in intimate settings such as bedrooms or cozy living spaces.
