

The SW5226 is a slim up/down light with a shallow projection of just 60mm from the wall. This light works well in small to medium rooms and spaces, and is ideally suited to use in bedrooms and stairwells, where a slim projection is desirable.

Supplied with this luminaire is a clear, frosted diffuser, designed to be fitted on at the bottom of the light, obscuring the fitting's innards, reducing glare and also softening and diffusing the light.

This range of slat wall light fittings are ideally suited for Scandinavian/Nordic interiors, comprising of a series of elegant natural light oak veneered slats, each measuring 27mm in width and 12mm in depth.

These slats are mounted on top of a black backing board to create a striking contrasting visual effect. The oak slats bring a unique warmth, texture and character whilst maintaining a sleek modern and clean-lined aesthetic compatible with the minimalist Scandi ethos
