Tolomeo Midi Table

The design of the Tolomeo is characterized by clean and minimalist lines, with a structure made of aluminum. This material gives the lamp not only a modern and sophisticated look but also remarkable lightness and robustness. The lamp head, adjustable in all directions, is equipped with a stamped aluminum reflector that ensures uniform light distribution, making it ideal for various lighting needs.

Tolomeo Midi maintains the compact dimensions of the diffuser of the Tolomeo Micro, increasing the power and extending the size of the structure and arms, thus allowing its use on work tables and desks.
