

TP-IS-10W-BA-24K-24V

Superlites

A thin and very flexible LED light source, this 10-watt white LED tape can meet a wide variety of needs. With 120 LEDs per metre, each one a Epistar 3528 SMD, this high quality, high lumen-output white LED tape draws 9.6 watts to give up to 960 lumens (per metre).

Commercial Grade LED Tape

High Quality Branded LED Chip

Thick 2oz PCB board for maximum heat dispersion

High grade, long lasting resistors to stop LED chip damage

Premium white coating for protection of the PCB board and to stop short circuiting

Smooth linear effect

10W

2400k

960lms (per Meter)

IP20

24V

CRI90

Dimmable

120 LED's per meter

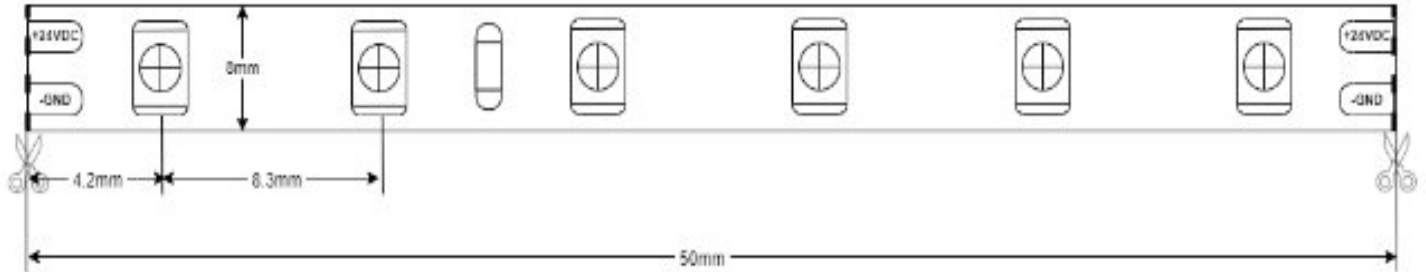

Width: 8mm

Cut Point every 50mm
